1 Session of Vision Therapy

Vision Therapy

I started Vision Therapy when I was 5 years old and in Kindergarten. I didn't like going to school because it was too hard for me and I didn't feel like I could do anything very well. I really didn't like writing because I couldn't write very well and had to keep doing things over and over and I still couldn't make it look right. But after I did Vision Therapy I like school and am better at writing and reading. I feel better about myself now.

I really had fun going to Vision Therapy because I got to play fun games all the time and everyone there is nice and funny. I even get to play fun games on the computer at home like Ninja Painter and Jetpack Joyride. I wasn't very good at some of the games at first, but after I kept trying them I got really good! Vision Therapy trained my eyes so that I can see better - I can see everything in the whole world!
