

Let me tell you how good it is to be at V.T. It taught my brain how to work right. I had headaches before and during V.T., but not anymore.

I liked V.T. because I had problems reading. It helped me to read. God is good. He gave me this to help me.

I liked my teachers. They were all nice to me and helped me do my best.

I liked the games on the computer like Ninja Painter, Glow runner, and Gravity Guy.

Thank you, all of you, for helping me.
