

Audrey Brown

Before I started Vision Therapy. I didn't really like reading It was hard Because I skipped lines. I had lots of fights with my mom and dad about reading.

When I Looked at my papers at school, my eyes were tiered It was hard to get my work done.

It was fun playing games with all the vision therapists. The home therapy was sometimes hard and sometimes easy feed fribit is my favorite game.

I can read faster now. I don't just like reading! I love reading! School is easier because I can read the questions easier. I like my reading homework now.

Thank you Brighter Future Vision Clinic.
